

## Welcome to Willings

We are a high technology company based in Andover, Hampshire and work on sites located throughout the UK and abroad.

Founded in 1989 Willings has grown to become a market leader in the supply, installation and repair of vehicle and pedestrian entrance control products.

Since the beginning Willings has been committed to providing the highest standards of service and technical support to all it's customers.

### Revenue Collection

Our vast knowledge of coin handling equipment and access control products has enabled us to develop our own revenue collection systems for both vehicle and pedestrian applications.

### Physical Access Control

Willings offer installation, planned and reactive service on various makes of vehicle and pedestrian entrance control systems.

Our many approved agencies allow us to offer total turn-key customer solutions and the choice they need.

Our skilled and dedicated workforce has an innovative approach to problem solving and the enthusiasm to find the best technical solution

Our mobile field technicians work from our factory in Andover, and are backed up by experienced workshop based engineers.

When required, our workshop engineers can be used to respond to emergency breakdowns. This ensuring that all calls are attended to within hours.
